

Lakehead University River Trail

Sentier de la rivière l'université Lakehead

Take a walk on the wild side!
Leave behind the university
with its many buildings and
man-made lake. Here you
can experience wild nature as
people have experienced it
for centuries. You can forget
for a few minutes that you are
in the city.

Promenez-vous du côté de la
nature ! Laissez l'université et ses
nombreux bâtiments, ainsi que
son lac construit par l'Homme.
Ici, vous pouvez faire l'expérience
de la nature telle que les gens
en ont fait l'expérience pendant
des siècles. Vous pouvez oublier
pendant quelques minutes que
vous êtes en ville.

WHEN I VISITED, THE MOON WAS:

Getting out of the city and into nature is both good for our brains and good for our bodies. What is your favourite outdoor spot to escape to? Ask your family to accompany you to your special place.

Clue: When you are biking or walking between the college and the university, the trail makes a big bend. You will find the post to the north in the clearing. Don't forget to visit the river which is nearby!
